## KEC-90M

### ANALOG AUDIO CABLE

#### PRODUCT FEATURES

- Balanced Single Pair Microphone Cable
- Robust PVC Jacket
- Ideal for extension cable
- Different color jacket for selection
- High quality oxygen free copper conductor

#### DESCRIPTION

The KEC-90M is a high quality analog microphone audio cable for high application demand. The PVC outer jacket meets the demand for the most demanding environment with special characteristics; high tensile strength and resistance to abrasion.

The cable is suited for the most adverse condition in wet and humid environment.

#### SPECIFICATIONS

Conductor Material:	Stranded Oxygen Free Copper
Conductor Description:	20 x 0.10mm
Number of Pairs:	1
Insulation:	PE (Polyethylene)
Cover:	Cotton Yarn, Cotton Paper
Shielding Material:	Stranded Oxygen Free Copper
Shielding Description:	96 x 0.10mm
Jacket	PVC (Polyvinyl Chloride)
Overall Diameter:	6.0mm
Resistance:	88.9 ohm/km
Conductivity	98%
Max. Pulling Tension:	5kg
Current Rating (Max):	9 Amps
Spool Size:	20 x 14.2cm
Cable Spool Length:	90 Meters
