

NEW PRODUCT INFORMATION

DM5.0sj

Now with a 6.3mm (1/4") jack plug cable

The DM5.0s has built a reputation to be great sounding and reliable all-round microphone. It is used on-stage and in studios around the world by demanding performers and presenters.

The new DM5.0sj is the same great DM5.0s mic - but is now supplied with an XLR - 6.3mm (1/4") unbalanced cable. This allows it to be easily connected to 'domestic' products such as entertainment amplifiers, guitar amps and budget audio recorders.

The same DM5.0s mic..... but with a 'j'ack cable
