

## VTX-V20-VT-CVRW | Cover Wrap

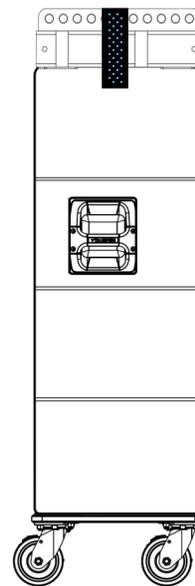

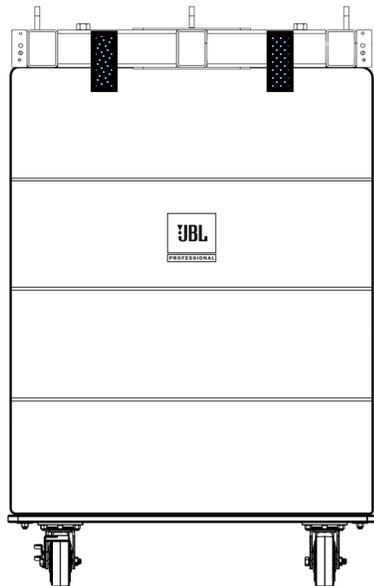

### Features:

- Handle cutouts, heavy-duty zippers
- Modular design, can be used with 3x or 4x VTX V20 enclosures
- Rear panel access flaps for input connectors
- Speaker cabinets can be tested without fully removing the cover
- Allows for the Adapter Frame (AF) to stay on stack during transport

### Description:

Reinforced, padded protective cover for 3x or 4x VTX-V20 enclosures plus VTX-V20-AF array frame when transported vertically. The cover features an open top design that allows the array frame to remain attached during transport.

### Included:

- 1 x VTX-V20-VT-CVRW
